Strong Growth Continues for Produce Pro Software with Four Locations Across the Country

WOODRIDGE, ILL., October 6, 2016 – Due to growth in their customer base and the addition of several new team members, Produce Pro Software, an industry-leading provider of ERP software, solutions, mobile applications and consulting services for the perishable food industry continues to expand its footprint in the market, now having four locations across the country. Offices are located in Chicago, Los Angeles, Austin and Philadelphia.

“We strive to provide local support for our customers as much as possible and by opening offices in each region of the country we can ensure continued on-site resources and focused support are available,” said Tony Zuccato, Vice President of Operations of Produce Pro Software.

With over 80 dedicated team members across its four office locations, most have extensive hands-on expertise in the industry. “Many of our employees have been in the industry for a number of years. They have worked with various operations and bring a well-rounded industry perspective to each of their accounts,” commented Marc Hatfield, National Sales Manager of Produce Pro Software.

Hatfield added, “Produce Pro is well known as a provider to foodservice and wholesale distributors but the company and software itself is very diverse and flexible for all perishable business models across the supply chain including; foodservice, wholesale distributors, retailers, growers, packers, shippers, processors, repackers, and terminal markets.”

Produce Pro has been providing software, support, and consulting services for over 26 years to companies all over the world. Having seen strong and steady growth, Produce Pro works with more than 160 companies, with nearly 6000 end users; including some of the largest companies in produce distribution.

The intricacies of Produce Pro’s fully integrated software solutions include:

- Financials
- Resource Planning
- Inventory Management and Traceability
- Sales Order Entry and Ecommerce
- Purchasing, Pricing and Forecasting
- Shipping and Receiving
- Repacking and Processing
- Packing
- Farms Tasks
- Warehouse Management System
- IBM Cognos Analytics and Reporting
- Mobile Applications

By partnering with Produce Pro, customers benefit from increased pick and ship accuracy, reduced shrink, and assisting in the ability to increase company growth and revenue without increasing staff through organizational efficiencies.

“We are dedicated to providing the best and most robust solutions and support for our customers. As our company continues to grow and the industry changes at the rapid pace we have seen over the past few years, we will evolve and enhance the functionality of our software to support the needs of our customers and industry alike,” stated Dave Donat, President of Produce Pro Software.
